General Kids Music Class: A New Melody Begins

The most meaningful childhood memories often begin with the simplest moments, a familiar song, a joyful laugh, or the excitement of discovering something new.

At 57Promenade, we believe a residence should offer more than beautifully designed spaces. It should create opportunities for families to connect, grow, and enjoy meaningful experiences together.

That's why every Thursday, from 1:00 to 2:00 PM, at Childplay 57 on the Ground Floor welcomes families to our General Kids Music Class, a weekly activity thoughtfully created for children aged 6 months to 4 years.

Through singing, music and movement, storytelling, finger play, and instrument exploration, each session encourages creativity, confidence, and early motor development in a warm and engaging environment. More importantly, it offers parents and children a dedicated moment to slow down and simply enjoy being together.

More than just a weekly activity, this is part of the lifestyle at 57Promenade, where everyday living extends beyond the residence itself. It's about creating a community where families can enjoy meaningful activities, connect with one another, and embrace a more enriching way of life, all within the comfort of home.

Discover a residence where thoughtfully designed spaces and family, focused experiences come together. Don't forget to join us for the next session every Thursday, and discover how memorable family moments can become part of your everyday life.
